

Dear National Delegate, Dear Friend,

As you know, our Society (SECEC) and the American Shoulder and Elbow Society provide an exchange fellowship for surgeons devoted to the shoulder and elbow surgery. I think this is a great opportunity for young surgeons to improve their knowledge in shoulder and elbow surgery and, also, to set up new contacts with experienced surgeons in the USA.

Application period for US fellowship is now open. I would be really grateful if you could inform about this fellowship to all the members of your Country. The deadline is February 1st, 2010 ; if you need further information please take contact with our central office (secec@wanadoo.fr).

Kind regards,

Juan Bruguera,
Chairman of the Education Committee
